WORK HISTORY

Personal Projects

Project: A Retro WebSite (Landing Page)

Language: HTML, CSS, JS

- The similar landing page of Miranda Paper Portfolio.

Project: Weather App

Language: HTML, CSS, JS ,ReactJs

- The weather app will allow users to enter a location (city name) and retrieve the current weather information for that location. It will display essential weather details such as temperature, weather condition, humidity, wind speed, and an icon representing the weather condition.

Project: To - Do List Application

Language: HTML, CSS, JS

- It is user-friendly and mainly local storage functionality to save the to-do list, so users can access it even after refreshing the page.
